

The COVID-19 pandemic is a global crisis threatening our health, wellbeing and security

The Pacific Islands Forum has established the Pacific Humanitarian Pathway on COVID-19 (PHP-C). This Pacific-led emergency response is providing efficient movement of medical supplies, humanitarian assistance and technical experts through our region.

“In the space of a few short months, Pacific nations and our regional and international partners have come together to deliver a world first in terms of a collective regional approach. We have united against COVID-19 to ensure the protection of our peoples.

There are many stakeholders to thank for what has been achieved so far under the PHP-C, and we look forward to this continued support.”

Hon Simon Kofe, Chair of the PHP-C Ministerial Action Group,
Tuvalu Minister of Justice, Communication
and Foreign Affairs
